

## FIBRE OPTIC CABLE

### ENHANCED PERFORMANCE FIBRE UNIT (EPFU)

#### FEATURES:

- Enhanced Performance Fibre Unit (EPFU)  
2, 4, 8 and 12 fibres
  - Singlemode 9/125, Multimode 50/125  
and 62.5/125
  - Special coating (low frictional resistance)
- 
- Enhanced Performance Fibre Unit (EPFU)  
2, 4, 8 und 12 Fasern
  - Singlemode 9/125, Multimode 50/125  
und 62.5/125
  - Spezielle Beschichtung (geringer  
Reibungswiderstand)

| Order Number Bestell-<br>nummer | Description<br>Beschreibung                   | OuterØ<br>AussenØ | Weight<br>Gewicht | Min.bend radius<br>Min. Biegeradius | Length in pan<br>Trommellänge |
|---------------------------------|-----------------------------------------------|-------------------|-------------------|-------------------------------------|-------------------------------|
| Single Mode 9/125               |                                               |                   |                   |                                     |                               |
